

THE TUTORING STATION

Online Education

WHY ONLINE?

In our world today, technology has created alternative avenues for learners to achieve quality education outside of the traditional classroom. Online has become a significant domain for learning and it will progressively continue to be so in the years to come.

PROMOTES INDEPENDENT LEARNING

With the absence of an in-person tutor directing and maintaining learning practices, a lot more responsibility is placed on students to manage and accomplish their own academic goals.

MORE CONVENIENT

Online tutoring will save time and energy from traveling from place to place to meet up with a tutor. Synchronizing schedules will also not be a huge issue as students can organize their schedule around their availability. Students will also have the opportunity to learn from the comforts from his or her home.

PROVIDES ACADEMIC FLEXIBILITY

With online tutoring, students have the opportunity to set their own pace. There is also less pressure to complete learning objectives in a confined amount of time. Moreover, since learning goals can vary, curricula can be based on a student's academic need.

MORE AFFORDABILITY

While The Tutoring Station offers high-quality instruction from exceptionally qualified professionals, we believe in making education more cost-effective. Through our learning management system, we engage smaller learning community that can complement teacher-student learning thus making student-centered tutoring more economical
